Proposed 2022-23 budget includes NO tax increase

Budget Priorities

The **budget carries a 0% tax increase** while maintaining programs and services for students, and includes the following:

ELEMENTARY HIGHLIGHTS

- Implementation of clubs
- Instrument lessons for grades 3-5
- Swim instruction for grade 2
- Reinstate Academic Intervention Services
- Implement tech class/instruction

JR./SR. HIGH SCHOOL HIGHLIGHTS

- Reinstatement of science and physical education teachers and a 0.5 shared language teacher
- Maintains social-emotional support services
- Sustain enrichment opportunities & academic support services at the middle school
- Sustain and develop elective opportunities in the high school

Budget Numbers

REVENUE

- Overall state aid increase of \$2.2 million
- Proposed tax levy of 0 percent increase is below the state calculated limit of 1.62 percent
- Proposal uses \$230,000 from fund balance and \$261,176 from ERS/TRS reserves
- Local taxes would make up about 33% of revenue

SPENDING

- Increased BOCES expenses and costs for staff salaries and benefits

On Tuesday, May 17, Herkimer Central School District residents will vote on a \$28,502,714 proposed budget for the 2022-23 school year. For the second consecutive year, the budget will result in a 0 percent tax increase.

While spending will increase 7.91 percent due to increased staff salary and benefit costs and BOCES program increases, the use of fund balance, employee and teacher retirement system reserve funds, and a strong state aid package has enabled the Board of Education to propose a budget that allows the district to keep and improve on present programs and services without the need for additional tax revenue.

Voters will also elect three representatives to the Board of Education, vote on a capital reserve fund proposition, and will vote on the public library budget and library board of trustees.

“I’d like to give credit to the Governor and the Legislature for giving us a strong aid package,” said Interim Superintendent Gary Tutty. “We are often quick to complain when our aid is not adequate to meet our expanding needs. Yet, in this case, our government officials have responded to not only the normal challenges our district has to face, but to the added pressures put upon schools during the pandemic.”

Tutty also credited the leadership of the BOE and staff during the budget development process.

“These past few years have been incredibly difficult, but through the leadership of the Board of Education and a dedicated staff, this budget is just another example of the balance the district has been able to achieve between meeting the needs of our students and meeting their responsibility to our taxpayers,” he added.

Maintaining/Restoring Programs

The proposed budget contains funding for a \$100,000 capital outlay project

that includes network infrastructure and access control improvements at the elementary school. It also preserves existing instructional and extra-curricular programs and includes restorations to programs at both the elementary and Jr./Sr. High School.

At the elementary school, the proposal includes the reinstatement of Academic Intervention Services (AIS) and the implementation of new student clubs, instrument lessons in grades 3-5, swim instruction for grade 2, and additional technology instruction.

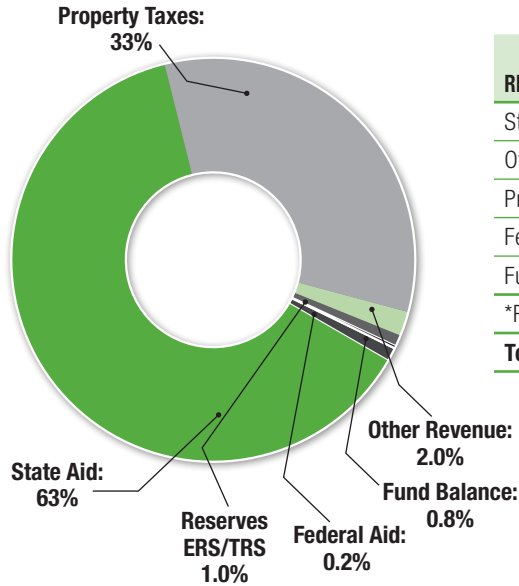

At the Jr./Sr. High School, the proposed budget includes the restoration of a physical education teacher, science teacher, and a shared language teacher.

It also maintains social-emotional support services, sustains enrichment opportunities and academic support services at the middle school, and sustains and develops elective opportunities.

District leaders have also set a goal to promote and reinstate various sports teams such as boys tennis, golf, and volleyball, and modified field hockey and girls tennis.

Budget Q&A

What am I voting on?

On May 17, Herkimer Central School District voters will decide on the district's \$28,502,714 proposed budget for the 2022-23 school year. Residents will also vote whether to authorize the creation of a capital reserve fund in an amount not to exceed \$5 million, elect three Board of Education members, and will vote on the public library budget and library board of trustees.

How come the budget is increasing?

The main growth in the budget can be attributed to employee salary and benefit increases, and BOCES expenses.

What is included in the proposed budget?

In addition to maintaining existing programs and services, the proposed budget includes additions to both the elementary and Jr./Sr. High School. At the elementary school, the proposal includes the reinstatement of Academic Intervention Services and the implementation of new student clubs, instrument lessons in grades 3-5, swim instruction for grade 2, and additional technology instruction. At the Jr./Sr. High School, the proposal includes the reinstatement of science and physical education teachers and a 0.5 FTE shared language teacher.

What happens if the budget is voted down?

If the proposed budget is defeated on May 17, the BOE can put the same or a revised budget up for a vote in June, or it can immediately adopt a contingent budget. After two unsuccessful budget votes, Herkimer would have to adopt a contingent budget. Under New York's tax levy limit law, a contingent budget must carry a 0 percent tax levy increase. Contingency rules prohibit the district from spending money in certain areas, including the community's use of school facilities (unless the costs are reimbursed), field trips, new equipment (not related to the health and safety of students), non-essential maintenance, certain student supplies, and small building improvement projects.

Senator visits Jr./Sr. High School; presents resolution proclaiming March as "Youth Art Month"

State Senator Peter Oberacker visited the Jr./Sr. High School in March to visit classrooms, and present a Senate resolution to art teacher Heather McCutcheon proclaiming March as Youth Art Month in NYS.

He was treated to a performance by the jazz band and visited multiple classrooms where he answered questions from students.

He spent time in both the art and agriculture classrooms, shared his support for the programs, and talked with students.

"Our legislative body recognizes the importance of art in education as being necessary for the full development of all children, challenging the intellect, while teaching lessons about order, proportion, and genius," he said.
